

Did you know that the Area III Webpage includes an upgraded help facility this year?

From any screen within the system, you can click the “Help” tab (located in the lower right hand corner of your screen.

This will take you to the following menu:

Click on a topic:

Need more help: [contact us](#).

Clicking on any of these items will provide you with description on what to do next, what to expect, and why there may be data missing, etc.

If clicking through this specific menu does not help you, there is always the “Contact Us” tab located at the bottom. This takes you to the following choices of specific Yacht Club Delegates who are in position to provide you with further email or phone support. Simply click either your home club’s delegate or the delegate for the race you desire to enter. This should provide a greater level of service than we were providing last year.
